Confections: Almonds best fits in both milk and dark chocolate. 70% of consumers are more inclined to buy chocolate bars with almonds than without. 75% of consumers worldwide believe chocolate with almonds is nutritious. Best for authentic Indian sweets and Mithai.

Cereals & Granola Bars: Almonds are most preferred nut in cereals and Granola Bars by consumer.

Bakery: Almonds are always "value-added" when it comes to consumer favorites in baked goods. Their flavor, crunch and nutrition have made them the #1 nut globally for new bakery products. Make your dishes gluten free with BDG Almond flour which has smooth mouthfeel and buttery flavor. It makes excellent macarons and produces moist baked cakes. Perfect for both baking and cooking.

Snacks: Almond are so versatile – from plain almonds for snacking to flavored almonds in salad toppings, trail mixes, and more, this nut does it all.

Everyday: From breakfast to a late-night snack, almonds are the value-adding ingredient that can "plus" your product.

SINCE 1950

OCEAN SPRAY CRANBERRIES, INC

WORLD'S LARGEST PRODUCER OF CRANBERRIES

PRODUCT OF U.S.A.

The Ocean Spray story started in 1930 when three passionate, independent cranberry growers found the key to expand their superfruit's success: a nuclear cranberry-growing family! By gathering under one cooperative, the three farmers worked together and created deliciously innovative products with the fruit they loved. The best part? They continued to grow their cranberry family along the way, which now includes over 700 grower families across North and South America!

As of April 2020, 100% of Ocean Spray's Cranberries are verified as Sustainably Grown Using FSA, becoming the First Fruit Cooperative Worldwide to achieve a 100% FSA Verification!

THERE'S NOTHING LIKE A CRANBERRY.

Cranberries are one of the most unique fruits in the world. One of only three fruits native to North America, they grow in the wild on long-running vines in sandy bogs and marshes. While they're primarily harvested in the Northeast, cranberries also grow in other parts of North America, like Wisconsin, the Pacific Northwest, and in Chile.

Cranberries are one of **Mother Nature's Superfruits!** With powerful nutrients and well-documented health benefits, cranberry can play an important role in a balanced diet and a healthy lifestyle.

WOH HUP FOOD INDUSTRIES PTE LTD

A Trusted SINGAPOREAN BRAND

Our story is one of perseverance, hard work and humble beginnings – from a small noodle house in Singapore's Chinatown in 1936 to a successful brand with a global distribution network of over 25 countries today. Woh Hup has built a reputation in sauce manufacturing for markets in India, England, Australia, the Middle East, Malaysia and beyond Singapore.

A well-loved stop for many of life's celebrations, our noodle dishes were so popular that customers requested to bring them home, especially our longevity noodles which is a classic symbol of happiness, health and prosperity.

After going to Hong Kong to master the art of making dry noodles, founder Chou Yeng Lan built his own charcoal kiln upon returning, and started creating his own dry noodles with added unique touches that suit the Singaporean palate. These noodles proved to be a real crowd-puller and so he started a factory in Everton Road to meet the rising demand. Soon, Chou and team started concocting sauces, such as the original oyster sauce and other signature sauces today, to season his noodles. These sauces gained recognition and became the preferred choice of Singapore's top restaurants, which had hitherto been using imported sauces from Hong Kong. Hence, Woh Hup's history of making fine sauces began, with 2020 marking 84 glorious years since founding.

Woh Hup is known in India for creating select formulas, made of consistent quality with NO ANIMAL ORIGIN ingredients. Some of its most popular sauces include:

A forerunner in the art of sauce production, Woh Hup is well-equipped to adapt to the fast-paced HORECA business and consumer preference without compromising on the use of traditional, time-tested ingredients.

All our sauces and condiments are Halal-certified and compliant to the global food safety standards: BRC Global Standard for Food Safety, FSSC 22000, ISO 9001:2015.
